KMUTNB: IJAST

King Mongkut's University of Technology North Bangkok
International Journal of Applied Science and Technology

Invitation to Submit Papers
for
2015 International Symposium on Multimedia and Communication Technology (ISMAC 2015)

KMUTNB: IJAST, through full research papers and compact reviews, covers all applications of science and technology. The journal bridges the crucial gap between basic research and patenting of an invention, targeting a broad audience of academic and industrial researchers, as well as the increasingly important world of scientists and engineers at start-up companies. The journal provides a forum for scientists and engineers to communicate on the most important topics in the field of:

1. *Multimedia Processing and Systems*
2. *Signal Processing*
3. *Industry and Regulatory Development for Communications*
4. *Communication Systems*
5. *Emerging Technologies in Multimed and Communication Technology*

Submission of Manuscripts and Review Process

The language of the journal is English. Authors should submit the original manuscript to the online submission (www.ijast.kmutnb.ac.th). Manuscript should be prepared in accordance with Authors Guide. All technical submissions are reviewed by at least two referees, well versed in the development in the subject matter, to guarantee an objective evaluation. Acceptance of manuscripts is strictly based on the advice of the referees. Manuscripts are reviewed promptly and scheduled for publication as soon as possible. However, the exceptional reviews are for the invitation guest papers.

This is very important to note that articles are considered for publication must be not published elsewhere and also are not being concurrently considered elsewhere. Authors will usually be notified of acceptance, rejection, or need for revision within 12 weeks of submission. There is no manuscript that is accepted until it has been reviewed by the Editor or one of the Associate Editors and at least two outside reviewers who are experts in their respective field.

It is Free of Charge

Indexed by TCI, ACI, Cross Ref, Google Scholar and SCITE
